

Capitol Build 2020

June 9, 2020

Building 9 am - 3pm

Remarks & Awards 12:15pm - 1:15pm

Advocacy is at the heart of what we do at Habitat Michigan. What better way is there to show our Legislators the power of Habitat for Humanity than bringing a build opportunity right to their front door? This build takes place at the State Capitol and is open to Legislators and their staff. Participants will complete an entire house frame on the steps of the Capitol lawn, which is then donated to one of the 54 Habitat for Humanity organizations in Michigan.

Habitat Michigan participates in the Cost of Home Campaign, Habitat for Humanity International's first nationwide advocacy campaign. Over the next five years, this campaign is committed to mobilizing local Habitat organizations, partners, volunteers and community members across the country to find the solutions and help create the policies that will allow 10 million Americans to meet their most basic needs.
